The Arab Academy for Science and Technology And Maritime transport (AAST)

Adel Sabry

AAST is one of the Arab League specialized non-profit organizations, established 1972 and manages a number of campuses all over Egypt. Our headquarters is based in Alexandria Egypt and also has branches in Syria, and United Arab Emirates offering locally and internationally accredited programs

AAST has a wide range of specializations, including Maritime transport, Engineering, medicine, pharmacy, dentistry, computer science, artificial intelligence, business, logistics, language and communication.

The Arab Academy for Science and Technology And Maritime transport (AAST)

Adel Sabry

Our Specialties Include:

- The Multimedia Center (MMC) is a division of the Arab Academy for Science, Technology and Maritime Transport located in Alexandria, Egypt. Founded in 1995 MMC is an integrated multimedia production house specialized in the development of educational and training multimedia courses on CD-ROM and online.

Our several successful projects witness our increasing success in the emerging field of multimedia production, which can be justified by focused planning, creativity, innovation and highly qualified team. The MMC is equipped with advanced facilities used in producing sophisticated multimedia titles. High performance computers are connected through an Intranet network, which is also used in storing assets and files. The center also includes an advanced studio for sound recording and editing, another for video capturing and editing, a special desktop publishing and printing section. And an e-book department. MMC's main expertise is the development of educational and training, e-learning and multimedia courses, e-training projects can be delivered in the form of CD-ROMs, web-based e-contents, e-books, video formats, or mobile & tablet applications.

The Arab Academy for Science and Technology And Maritime transport (AAST)

Adel Sabry

- Mr. Adel Sabry is head of the technical solutions department in the MMC. Certified for Apple support, certified by QSC audio, alpha audio (protocols sole agent), digistar planetarium projects. My Master's degree is in Quality Management systems, applied information technology. While data is the vital asset in our projects, data backup and information retrieval were my concern, I combined my academic and technical knowledge hence created a development and backup model, measured at mmc labs, and got academically accredited.
- I Joined BENEFIT Marketing Agency in 2021, we have a lot of clients that would utilize from cloud and hosting solutions in Lithuania

Interest in Lithuania:

Looking forward to Visiting IT solutions companies for business exchange seeking Cloud based solutions and hosting services companies.
